

SURYA INAPARTHI

Data Analyst | Python & SQL | Power BI & Tableau | Machine Learning | MSc Computer Science
+44 7887 132318 | suryainaparthi550@gmail.com | UK (willing to relocate anywhere) | [linkedin.com/in/surya-inaparthi-35b9761a0](https://www.linkedin.com/in/surya-inaparthi-35b9761a0) | suryainaparthi.github.io

PROFILE

MSc Computer Science graduate with hands-on experience in data analysis, Python, SQL, Power BI, and machine learning — gained through two internships building dashboards, automating reporting, and developing predictive models. Strong analytical and problem-solving skills, with the ability to communicate findings clearly to non-technical audiences. Available immediately, willing to relocate anywhere in the UK. UK Graduate visa from September 2026 — full right to work, no sponsorship required.

TECHNICAL SKILLS

Data Analysis & BI: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, Selenium), SQL (complex querying, extraction, manipulation), Power BI (DAX, KPI dashboards), Tableau

Machine Learning: Predictive modelling, classification, regression, clustering, feature engineering, model evaluation, A/B testing, statistical analysis

Reporting & Automation: Excel (pivot tables, VLOOKUP, advanced formulas, macros), automated reporting pipelines, ETL processes, CSV automation, Power Query

Platforms & Tools: Jupyter Notebook, Git, Google Colab, WordPress (Elementor), database design, data governance, GDPR compliance, cloud platforms (Azure/BigQuery — familiar)

WORK EXPERIENCE

Web Platform Developer & Data Intern | *Tees Maritime Cluster, Middlesbrough* Sep – Dec 2025

- Built "Waypoint," a role-based work experience platform (WordPress/Elementor) used by students, employers, teachers, and admins across Tees Valley schools.
- Built role-based access for four user types, a CV builder with PDF/Word export, an employer–student feedback tool, and Google Slides integration.
- Worked directly with the project owner on requirements and feature priorities, keeping the platform aligned to safeguarding and GDPR rules.
- Supported reporting alongside the build using Python and Power BI, automating data exports to track student engagement and completion.

Data Analytics Intern | *Uptrail Ltd (Remote), UK* Jul – Aug 2025

- Ran end-to-end data analysis projects using Python and SQL, spotting trends and commercial opportunities in large business datasets and turning them into clear recommendations.
- Built interactive Power BI dashboards with KPI tracking and drill-down views, giving commercial and product teams real-time visibility into performance.
- Presented findings to senior stakeholders in plain language, making sure both technical and non-technical audiences could act on them.
- Awarded Certificate of Excellence** for analytical performance and contribution throughout the programme.

TECHNICAL PROJECTS

- Customer Churn Prediction (Python, Scikit-learn):** ML classification model, 85%+ accuracy — feature engineering, hyperparameter tuning, ROC curve and confusion matrix evaluation.
- Pizza Sales Dashboard (Power BI, DAX):** BI dashboard with DAX measures tracking Total Sales, Average Order Value, Sales Growth Rate, and Customer Lifetime Value.
- Sales Data Analysis & Automation (SQL, Excel, Python):** Analysed sales datasets using SQL to identify regional trends; automated KPI reporting using pivot tables, VLOOKUP, and macros.

EDUCATION

MSc Computer Science | *Teesside University, Middlesbrough* 2024 – 2026

BSc Information Technology | *Anil Neerukonda Institute of Technology & Sciences* Aug 2019 – May 2023

CERTIFICATIONS

Google Data Analytics Professional Certificate (in progress) | IBM Machine Learning Professional Certificate | Microsoft Power BI (self-study)
